

Suffering from Migraine pain?

Do you suffer from migraine headaches?

Do you suffer from migraine headaches?

Do you have 4-14 migraine days a month?

Are you between 18-80 years old?

Had your first migraine before age 50?

Have you previously taken a daily oral prescriptive medication to prevent your migraines?

We are currently conducting a research study to evaluate the safety and effectiveness of an investigational drug for the prevention of migraines.

If you qualify, there is no charge for study-related care.
Compensation for time and travel may also be provided.
